

PHYSICAL EXAMINATION CARD
 WELLESLEY COLLEGE TRAINING CAMP
 WOMAN'S LAND ARMY OF AMERICA

Name	Age	Date	Examiner
Development: well built	deformity		
Height:	Weight:		
Complexion: sanguine	pale	acne	
Mucous membranes: pink	pale		
Haemoglobin: per cent			
Tongue: clean	coated		
Teeth: lacking	cavities		
Eyes: onjunctivitis	blepharitis	Pupils: equal	react to light accom
Ears: hearing good	impaired	cerum plug	
	drum memranes	normal retracted	thickening inflamed perfor
Recommendations:			
Nose and Throat: catarrh	mouth- breathing		
Septum: negative	ulceration	perforation	deviation spur
Lower turbinate: negative	congestion		hypertrophy atrophy
Polypi:	Adenoids		
Pharynx: negative	pharyngitis	granular	atrophic
Tonils: negative	tonsillitis	hypertrophy	
Recommendations:			
Thyroid Gland: palpable	enlarged	inthmus	lobes measurement
Lymph Nodes: enlarged	cervical	axillary	epitrochlear inguinal
Hands: tremors		fingers clubbed	
Radial pulses: regular	synchronous	tension	
Chest: inspection: negative		abnormality	
palpation: negative		abnormality	
Lung: percussion: negative		abnormality	
anscultation: negative		abnormality	
Heart: inspection: negative		abnormality	
palpation: apex beat		interspace	cm. from mid-sternal line
thrill	palpitation		in mid-clavicular line
percussion: size: normal	enlarged	Position: normal	displaced
anscultation: heart sounds: regular		irregular	intermittent
valves: normal	murmurs: location	time	
transmitted upward	to axilla	to back
